

**Achievement by CCDD fellows:**

1. Dr.Kirthika Rajaraman IAP fellow in Developmental & behaviour paediatrics 2018-2019 bagged 1<sup>st</sup> place with gold medal in her exams. Proud moments to CCDD

**Community project:**

4.. CCDD conducted a pilot study on Socio Emotional Learning programs in NAVKIS school for 135 children aged 5-6 years. This program was adopted from the Japanese Kimochi program.

Navkis school has promised to take this program forward as a part of their school curriculum for 800 children in the current academic year.

#### 5. Preschool teachers training workshop:

Teachers, special educators from many preschools in Bangalore participated in one-day training session on early identification & early referral for developmental delays.

CCDD in collaboration with Tots guide is planning to conduct similar training sessions in future too.

### **Training workshops for CCDD doctors & therapists to upgrade their skills**

6. Conducted workshop on "Framework to address challenging behaviour- ABA approach" by International Faculty, Ms. Kavita Kamat, MSW, MEd, BCBA, Behaviour analyst from Canada. All our therapists attended the session & upgraded their skills

7. CCDD Team was invited to the Indo-Canadian Autism Network (ICAN) 3-day training event held at Hyderabad. This workshop was conducted with dual aims of building capacity through training and developing an international network for clinicians and researchers. Training Focused on ASD priority areas -diagnosis, early intervention, complex presentations, and family support

### **Research publications & Participation in conferences:**

7. Research paper " **SCoPE PROFILE (Social, Communication, Play and Education) - An Online intervention based developmental assessment & evaluative tool for children with Developmental delays**" from CCDD was selected for poster presentation In International conference INSAR 2020, Seattle

8. Research paper "Parent Mediated Early Intervention Program for young Children with ASD or at risk for ASD/ Social communication Disorder - SCoPE-EDITT Program- A Pilot Study" from CCDD was selected for paper presentation in Early years conference 2020, Australia.
